Abstract Submission

Abstract submission deadline

30 June

Notification of abstract acceptance

20 July

Upload your summary at the time of registration to the conference or send it by e-mail to the Education Councilor Giulia d'Amati: giulia.damati@uniroma1.it

Travel Grants

The AECVP is offering 5 awards worth €300 each plus free registration to assist with travel and accommodation costs. Applicants should complete and return the application form available online: stephen.preston@nhs.net

Registration fees

	Early registration <small>Before 31st July</small>	Late registration <small>1st August – 30th September</small>	On-site registration
Member	290	340	390
Non member	370	420	470
Trainee member <small>(Under 35)</small>	150	200	230
Trainee <small>(Under 35)</small>	200	250	280

Extras

Gala dinner (to book before 15.09.2018, no on-site)	90
Virtangio workshop (to book before 01.09.2018), 30 places	40

Prices are in CHF; indicative exchange rate: 1 CHF= 0.837 EUR (13.05.2018)

Program

Keynote Lectures

- *Surgery of the right heart*
René Prêtre, Lausanne, Switzerland
- *Molecular and cellular pathophysiology of cardiac channelopathies*
Hugues Abriel, Bern, Switzerland
- *Endothelial dysfunction*
Thomas F. Lüscher, Zurich, Switzerland

Virtangio workshop

- The application of native CT and its limits for cardiovascular imaging
- Postmortem CT angiography and cardiovascular imaging
- Postmortem MRI: the future of cardiovascular imaging?

Lecture

Dissection of the heart, Cristina Basso, Italy

Symposium I

Olsen-Gourley symposium on challenging cardiomyopathies

- Left ventricular non-compaction
- Left ventricular scar
- Idiopathic left ventricular hypertrophy
- Role of MRI in diagnosis of (new) cardiomyopathies
- Tako tsubo

Symposium II

Heart failure

- Resynchronisation therapy-CRT
- Primary graft failure after heart transplant. Can we predict it?
- Molecular markers of the heart transplant rejection?
- Allograft vasculopathy

Symposium III

Sudden arrhythmic death

- Normal heart
- Genetics of cardiac arrhythmias
- Drug and arrhythmic SCD
- Postmortem genetic testing and European Recommendations

Symposium IV

Coronary artery pathology-not only atherosclerotic

- Congenital abnormalities
- Coronary dissection
- “Stent” related iatrogenic coronary artery pathology
- Drug of abuse and coronary artery pathology

AECVP

Michael Davies Distinguished Achievement Award

Cardiovascular pathology and sudden cardiac death: from Morgagni and Lancisi to Democritus and back, Gaetano Thiene

Oral and poster presentations

Special Lecture

Anton Becker: *Netsuke seen through the eyes of a Western cardiovascular pathologist*
